Summary

Full Stack Developer skilled in React.js, Django, and REST APIs, with experience building scalable and secure applications. Developed AI-powered systems and applied machine learning in real-world scenarios. Strong in data structures and problem-solving.

Education

- GMR Institute of Technology** 2022 – 2026
B.Tech in Computer Science and Engineering
CGPA: 8.31
- Tirumala Junior College** 2020 – 2022
Board of Intermediate Education
Percentage: 71.3%
- VVK Sisumandir High School** 2019 – 2020
Board of Secondary Education
Percentage: 69.16%

Technical Skills

- Languages:** Python, Java, SQL
- Frontend:** React.js, HTML, CSS, JavaScript
- Backend:** Django, REST APIs
- Database:** MySQL
- Core:** Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks
- Tools:** Git, GitHub, Postman, Vercel

Projects

- Meal Matrix System: Smart Meal Booking & Attendance System** 2026
 - Engineered a scalable full-stack system supporting 100+ users with secure authentication and optimized performance.
 - Automated attendance using QR-based system, reducing manual effort by 80%.
 - Designed real-time dashboards to track bookings and usage insights.
 - Followed REST API design principles and implemented authentication for secure data handling.
- AI-Powered Interview Feedback System** 2025
 - Built an AI-based interview platform with real-time interaction using React.js.
 - Integrated NLP and speech-to-text APIs to analyze communication skills.
 - Generated dynamic interview questions and personalized feedback.
- AI Warfare Decision System** 2024
 - Designed an AI-based system for automated threat detection and decision-making.
 - Applied deep learning for target recognition and analysis.
 - Generated strategic recommendations with minimal human intervention.

Experience

- Full Stack Developer Intern – Hippocloud Technologies** 2026
 - Developed backend APIs using Django for real-time applications.
 - Integrated machine learning models into backend workflows.
 - Improved system performance by debugging and resolving issues.
- Community Project** June 2024
 - Conducted workshops for 50+ students on digital tools and communication skills.
 - Increased awareness of technical careers and digital literacy.

Achievements & Certifications

- Secured rank 8476 in AP EAMCET (Engineering Entrance Examination).
- Published research paper on “Artificial Intelligence in Warfare Military Applications” in an international journal.
- ServiceNow Certified System Administrator (CSA).
- Built full-stack applications used by 100+ users in real-time environments.
